

Dragon Prince Cedar

Cryptomeria japonica 'Dragon Prince'

- **Use:** This rounded evergreen has a compact habit, growing 2-3 feet tall and wide. It has stiff, light green foliage and prefers full sun. The ideal accent plant for a small garden. Drought tolerant.
- **Exposure/Soil:** Full/part sun and could tolerate a fair amount of shade; well-draining soil and appreciates slow release fertilizer.
- **Growth:** Moderate growth to 2-3' tall x wide.
- **Hardiness:** Zone 5-9; Shrub
- **Foliage:** Evergreen; Beautiful new light green color in the spring, then turns a very deep dark green in summer.
- **Flowers:** Not known for flowers.

Collector's plant! Very drought-tolerant, this slow grower is ideal for containers.
