

Dragon Warrior Cedar

A new collector's plant!
Very drought-tolerant, this slow grower is ideal for containers.

Cryptomeria japonica 'Dragon Warrior'

- **Use:** Dragon Warrior™ Cryptomeria, similar to Dragon Prince™, has year round interest. It also has a similar compact growth habit, but it differs in the fact that it turns black-green in the winter, making it extremely unique in the landscape. Uses range in specimen plantings as well as bonsais.
- **Exposure/Soil:** Full/part sun and could tolerate a fair amount of shade; well-draining soil and appreciates slow release fertilizer.
- **Growth:** Moderate growth to 2-3' tall x 3' wide.
- **Hardiness:** Zone 6-9; Shrub
- **Foliage:** Evergreen; dark green, almost black mature needles. New growth is light green. Maintains color well in winter.
- **Flowers:** Not known for flowers.
