

Russian Olive

Elaeagnus pungens 'Ebbengei'

- **Use:** Densely-branched evergreen shrub creates a superb screen, hedge, barrier, or naturalizer. Silvery scales on rich green round leaves with wavy edges; silvery-white and brown scales on underside.
- **Exposure/Soil:** Prefers full sun to part sun. Once established needs only occasional water. Rich, moist, but well-drained soil for best performance.
- **Growth:** Fast growing to 6 to 10 ft. high, equal width.
- **Hardiness:** 3-7 Shrub Evergreen.
- **Foliage:** The leaves are olive green in color.
- **Flower:** Silvery-white flowers in fall.
