

Pinkerbelle Rose

We predict that you will find it low maintenance, vigorous, and very rewarding, beginning the very first season in your garden!

Rosa x Meivanae'

- **Use:** Pinkerbelle™ is a very unique breakthrough hybrid tea, combining a spicy verbena fragrance and superior disease resistance. This rose grows well on its own roots and has proven to perform very well in black spot climates. New in 2019
- **Exposure/Soil:** Full to part sun. During the winter they prefer well-drained soils. Water regularly, when top 3 in. of soil is dry.
- **Growth:** Grows 5' tall and 3-4' wide.
- **Hardiness:** Zone 4-9; Shrub
- **Foliage:** Deciduous. Black spot leaf disease.
- **Flower:** This Hybrid Tea breakthrough delivers both intoxicating scent and exceptional disease resistance. The large, furled, cream-colored flowers are hemmed in a picotee frosting of hot pink. Resistant to rust and mildew. Cuplike, 30–34 petals. Strong, spicy, verbena scent
