

# Sunrosa Red

## *Rosa x 'Sunrosa' Rosa x 'ZARSBJOH'*

- **Use:** Sunrosa™ roses are an exciting new series from the Suntory® Collection. Sunrosa™ roses are beautiful, compact and bushy. They are highly disease resistant with low maintenance and long flowering period. Due to their compact habit, Sunrosa™ is ideal for small to medium landscape spaces and patio containers. They need less pruning than typical shrub roses, and due to their high disease resistance, are easy to care for.
- **Exposure/Soil:** Full to part sun. During the winter they prefer well-drained soils. Water regularly, when top 3 in. of soil is dry. More tolerant of shade than 'Radrazz'
- **Growth:** Moderate grower, 14-24 in. tall and 12-18 in. wide
- **Hardiness:** Zone 5-10 Shrub
- **Foliage:** Deciduous. Unsurpassed resistance to black spot leaf disease.
- **Flower:** Intense, true red double blooms have a mild, tea-rose fragrance.
