

Sensation Lilac

This fragrant beauty does have some particular needs so research further before planting. Good for cutting. Fragrant. Deer resistant.

Syringa vulgaris 'Sensation'

- **Use:** An outstanding lilac noted for its large trusses of purple-red florets edged in white. A mid-season bloomer that typically flowers in mid-May. Branches are erect and open with rich green foliage. Use to create a beautiful spring flowering hedge, screen, or accent.
- **Exposure/Soil:** Requires well-drained soil and full-part sun. Thrives in cool summer climates so best to look for a cool spot in your garden to protect from summer heat. Prune to shape right after blooming. Apply a controlled release fertilizer in the spring. This variety has good powdery mildew resistance. **MUST HAVE GOOD DRAINAGE! NO RED CLAY! ALSO NEED TO ADD LIMESTONE TO SOIL TO GET TO pH of 7**
- **Growth:** Grows slowly, especially during the first three years, but eventually reaches a height of 8-10' tall and 6-8' wide.
- **Hardiness:** Zone 3-7; Shrub
- **Foliage:** Deciduous. Foliage is burgundy-tinged in fall.
- **Flower:** In mid-spring this unique cultivar bears slightly fragrant, single purple blossoms with distinct white margins.
