

# Redwing Japanese Maple

**Graceful and beautiful  
tree for the garden!  
Red foliage in the fall.**

## *Acer palmatum 'Redwing'*

- **Use:** An upright form with rounded leaves of light green emerging with a red margin. Fall colors of oranges to red. A nice new introduction.
- **Exposure/Soil:** Very easy to grow in a wide range of well-drained soils. They thrive in sun but with partial shade in afternoon best to protect the leaves from scorch. A sheltered area away from strong winds is preferred.
- **Growth:** Mature at 16' tall by 10' wide. Growth habit is variable from upright rounded, horizontal-ved, or weeping pendulous, depending upon cultivar, and often becoming densely twiggy with age.
- **Hardiness:** 5-8, medium sized tree
- **Foliage:** Deciduous. Green leaves are followed with intense purple-red autumn color.
- **Flower:** Clusters of red to purplish inflorescences in late May and early June are often hidden by the foliage.
