

Raspberry Dazzle Dwarf Crape Myrtle

Lagerstroemia indica 'Raspberry Dazzle'

- **Use:** Now even smaller, limited space landscapes can benefit from the beauty that comes with a crape myrtle in full bloom!! Boasts raspberry red flowers in summer. From our local celebrity Michael Dirr formerly of UGA.
- **Exposure/Soil:** Full/part sun; well-draining soil and appreciates slow release fertilizer. Water regularly. They tolerate clay and alkaline soil well. Prefers not to have water on the leaves so use drip instead of sprinkler irrigation.
- **Growth:** Slowly reaches 4 to 6 ft. tall, 2 to 3 ft. wide.
- **Hardiness:** Zones 6-9
- **Foliage:** Deciduous. New foliage growth is burgundy. Lustrous dark green leaves which develop into a showy red color in fall.
- **Flowers:** These lovely raspberry colored flowers in summer.

Heat loving small shrub
with lots of color!
