

Claudia Wannamaker Magnolia

All summer long it will be covered with those beautiful blooms, and even out of flower it has a grand beauty, and makes a real statement in any garden. Can also make a great hedge.

Magnolia grandiflora 'Claudia Wannamaker'

- **Use:** The southern magnolia is without equal among evergreen flowering trees, and the Claudia Wannamaker form is top of the list for a full-sized tree, that will begin to bloom at an early age. This vigorous tree will grow rapidly, at around 3 feet a year when young, so it will soon become a good-sized specimen, or create an excellent screen for privacy. With its beautiful glossy leaves and enormous, 12 inches across pure-white perfumed flowers. Introduced by the great Johnny Brailsford of Orangeburg, South Carolina.
- **Exposure/Soil:** Thrives in any light from full sun to shade, and tolerates just about any well-drained garden soil. Enjoy this one-of-a-kind beauty!
- **Growth:** Large growing 40' tall and 25' wide. The tree is floriferous from a young age and makes a nice early summer show of fragrant flowers.
- **Hardiness:** Zone 7-9; Tree.
- **Foliage:** Evergreen. The leaves of this evergreen shrub or small tree are rusty-brown on the undersides. Rich glossy foliage 12 months of the year. The brown back leaves are a nice dark green and smaller than those of a typical Magnolia grandiflora. .
- **Flower:** A heavy bloomer, spectacular creamy-white summer blossoms. Interesting cones of red fruit in fall-winter.
