

DD Blanchard Magnolia

Open-branched pyramidal form makes an excellent shade tree.

Magnolia grandiflora 'DD Blanchard'

- **Use:** This Magnolia has a compact and pyramidal growth habit and is evergreen. A striking tree for any landscape.
- **Exposure/Soil:** Grow in full sun. Well-drained, moist, fertile, humus rich soil that is well-limed; tolerant of slightly acidic soil
- **Growth:** Can reach up to 50 feet tall with a 25-30' spread at maturity.
- **Hardiness:** 5-8; Tree.
- **Foliage:** Evergreen. The leaves are unique, the tops are shiny green like other Magnolias but the backs are a rusty almost orange color.
- **Flower:** Creamy 8-12", white globe shaped with fantastic fragrance in May.
