

Cleveland Select Flowering Pear Tree

A great improvement over the Bradford Pear a hardier, showier, sturdier tree!

Pyrus calleryana 'Cleveland Select'

- **Use:** Perfectly uniform tree... great for front yards. Your neighbors will think that you get ladders out in the middle of the night and prune this tree. It naturally grows in a tight, symmetrical shape. A semi-perfect oval. One of those miracles of nature. There's nothing more beautiful in spring than a flowering pear tree covered in snowy white blooms. This is an excellent street tree with beautiful purplish-red fall color. This pear has a superior branch structure that withstands ice and wind damage better than the Bradford Pear.
- **Exposure/Soil:** Full to part sun. Very adaptable to all kinds of soils and growing conditions. It tolerates urban conditions, and heavy clay soils.
- **Growth:** Reaches a height of 30 feet and width of 15 feet. Display evenly branched limbs with pyramidal form.
- **Hardiness:** 4-9; Tree
- **Foliage:** Deciduous. It has an attractive upright oval form and glossy green leaves.
- **Flower:** More blooms than any other flowering pear tree. Masses of white flowers in spring. It is fruitless and has few pest problems.
