

California Bush Daisy

Euryops pectinatus 'Viridis'

- **Use:** An extended flowering season makes this one of the most popular evergreen shrubs. Bright yellow daisy-like blooms contrast with deep green leaves. Great colorful accent, super choice for containers.
- **Exposure/Soil:** Thrives in full sun and well drained soil.
- **Growth:** Grows quickly to 5-10' tall depending on the site.
- **Hardiness:** 8-10; Annual or Tender Perennial depending on the site.
- **Foliage:** Deciduous.
- **Flowers:** Will continue to bloom spring to summer.
