

Creeping Fig

Ficus pumila

- **Use:** An evergreen vine with small, leathery, dark green leaves. Vigorous-growing, clinging, dense branches will adhere to any surface. A handsome choice for climbing walls, poles, arbors and fences.
- **Exposure/Soil:** Full/part sun; well-draining soil and appreciates slow release fertilizer. Water when top 3 in of soil is dry.
- **Growth:** Fast-growing to 25 to 30 ft. long.
- **Hardiness:** 7-9; Vine. We recommend you plant them on a protected wall away from extreme winter cold. We have had ours for 10 years, however, with no problems!
- **Foliage:** Glossy evergreen leaves.
- **Flowers:** Flowers have little ornamental value.

Great for covering up walls or as a dense groundcover in shade.
