

# Summer Sunset Asiatic Jasmine

## *Trachelospermum asiaticum* 'Summer Sunset'

- **Use:** A blend of yellow, orange and red variegation on this selected form of star jasmine. Can be grown as a vine or ground cover. Somewhat slow, but worth it the color combination is stunning.
- **Exposure/Soil:** Full sun / part shade, but prefers part sun; well-draining soil and appreciates slow release fertilizer. Water when top 3 in of soil is dry.
- **Growth:** Grows 6 to 12 inches tall and 18 to 24 inches wide. Needs frequent pruning for thickness.
- **Hardiness: Zone 7-9; Vine**
- **Foliage:** Evergreen. New leaves are red turning a creamy yellow and provide hues of green, blue-green, orange, yellow and red with beautiful variegation.
- **Flowers:** Produces small, very fragrant, tubular, creamy yellow flowers. Blooms more prolifically in warmer regions.
