

Flowerball Series Begonia

E068
FlowerBall F1 Pink

E067
FlowerBall F1 Red

E069
FlowerBall F1 White

E066
FlowerBall F1 Rose

Varieties are suitable both for mixed containers of different sizes and also for planting in beds with the possibility of combining individual colors. They are well resistant to higher temperatures and rain and bloom from spring until the first frosts.

Begonia 'Flowerball' Series

- **Use:** I make this LOOK EASY. These vigorous plants feature double flowers and dark foliage. They perform well in landscapes and in containers. These are very dense, upright, globe shaped plants that will flower all summer.
- **Exposure/Soil:** Sun-shade. Water regularly, when top 3 in. of soil is dry. Use slow release fertilizer for best results. Brown leaf variety will tolerate more sun if the soil is not fantastic. Keep water off leaves and flowers.
- **Growth:** Grows 8-18" tall and 8-14" wide, maybe taller if deep shade or rich soil.
- **Hardiness:** Zone 9-11, Annual, Houseplant
- **Foliage:** Apple green foliage is an excellent foil to the showy flowers.
- **Flower:** A multitude of large, double blossoms from spring to fall make this one of the landscape plants for high impact color! Available in 4 colors.
