

# Waterfalls® Series Begonia Basket

Begonia Waterfall® Encanto Red®

Begonia Beauvilla® Dark Salmon®

Begonia Waterfall® Encanto Orange®

Begonia Waterfall® Bicolour®

**Brilliant blooms cover lush well branched plants and offer non-stop flowering from late spring through the fall. Looks great either on their own in containers or as component in a combo. Their trailing habit makes them an excellent choice for the 'spiller' position in container combinations.**

## ***Begonia sp. 'Waterfall Series'***

- **Use:** Begonia Waterfalls have a trailing growth habit, making them ideal for spilling over the edges of containers and baskets.
- **Exposure/Soil:** Performs well in part shade to shade. (Blooms better in part shade.) Water regularly, when top 3 in. of soil is dry. Use slow release fertilizer for best results. Good drainage is a must.
- **Growth:** Grows 8-10" tall and wide, maybe taller if in more shade or rich soil.
- **Hardiness:** Zone 9-11, annual, houseplant
- **Foliage:** Dark green wing-shaped leaves and will spill over the sides of containers or form nice mounds on the ground.
- **Flower:** They produce a profusion of single or double flowers throughout the summer, offering a continuous display of color. They don't require deadheading, making them a low-maintenance choice for gardeners.
