

Bombshell Caladium

Loves the shade and adds big impact quickly!

Caladium 'Bombshell'

- **Use:** Caladium Bombshell is a classic introduction from Dr. Hartman's breeding program. Bombshell features an intense red center with a deep green margin. This caladium withstands full sun and adds a colorful accent to any landscape or patio pot. Caladiums thrive outdoors during the warmer months and add a lush, exotic touch to your yard or garden. They look fantastic in pots next to your shady front entrance or on the deck.
- **Exposure/Soil:** Full sun tolerant, but will also like some afternoon shade. Use slow release or water soluble fertilizer. Keep soil moist, watering under leaves and flowers for best results, but *don't leave them in soggy areas or too much water— a sure recipe for death.*
- **Growth:** Grows 12 to 24 in. tall, 12 to 18 in. wide, depending on the amount you water and fertilize them.
- **Hardiness:** Zone 9-11 Annual /Houseplant
- **Foliage:** Fancy red leaves have blue green edges.
- **Flower:** Small spathe type flower. Not very noticeable.
