Calibrachoa 'Doublette Love Swept'

- **Use:** *I make this LOOK EASY.* Excellent used in beds, borders, hanging baskets, and containers. Lovely near your pool or water features. Low maintenance. Deer resistant and attracts hummingbirds.
- **Exposure/Soil:** Loves full sun or at least 4-5 hours of afternoon sun. They love the heat! Water 2-3 times a week. Try to keep water off of the leaves. Requires well-draining soil and appreciates slow release fertilizer. Water regularly under the leaves. If you are not good at watering get some **Soil Moist.**
- **Growth:** Standing 6-12 inches tall and spreading up to 12-24 inches wide, the dense habit requires little to no trimming to keep its size in check.
- **Hardiness:** Annual, Zone 9-11; Some people have luck with them coming back in the ground if mulched heavily in the winter. Will not come up until following May.
- **Foliage:** Dainty, green leaves.
- **Flowers:** Features rosebud shaped flower that are deep pink with a white picotee edging. These petite blooms adorn a more compact size plant that is early to bloom in the season.
