Calibrachoa h. 'JGCAL09404' USPP 29,760

- ***Use:*** I'll KNOCK your socks off! From early spring until late fall a true powerhouse of tropical color! By the time hard frost comes in fall, this plant will have showered your garden with thousands of blooms. The petite flowers grace cascading plants that are great in combinations, mono-hanging baskets and in raised beds with great drainage.
- ***Exposure/Soil:*** Loves full sun or at least 4-5 hours of afternoon sun. They love the heat! Water 2-3 times a week. Try to keep water off of the leaves. Requires well-draining soil and appreciates slow release fertilizer. Water regularly under the leaves. If you are not good at watering get some **Soil Moist**.
- ***Growth:*** Moderate grower 6-12" high and 20-30" trailing.
- ***Hardiness:*** Annual, Zone 9-11; Some people have luck with them coming back in the ground if mulched heavily in the winter.
- ***Foliage:*** Dainty, green leaves.
- ***Flowers:*** This stunning variety features a lively mix of yellow and pinkish-red streaks that bloom abundantly all season long.
