Clockwork™ Pink Star

Clockwork™ Purple

**Vigorous,
upright
plants
with large
flowers;
great flowering
color for shaded
areas**

Impatiens x hawkeri 'Clockwork Series'

- **Use:** Extra-large flowers in vibrant colors on strong, full plants. Bright, season-long color for shade to dappled sun. Selected for superior landscape performance and great for hanging baskets or patio containers.
- **Exposure/Soil:** Plant in partial shade or shade. Water regularly, when top 3 in. of soil is dry, don't let them dry out. Use slow release fertilizer for best results. Brown leaf variety will tolerate more sun if the soil is not fantastic. Keep water off leaves and flowers.
- **Growth:** Moderate growing; reaches 8 to 10" tall and 10-12" wide, maybe taller if deep shade or rich soil. Use in patio containers, hanging baskets and beds.
- **Hardiness:** Zone 9-11, Annual, houseplant
- **Foliage:** Green or red undersides of the leaf. We have found the red underside leaves to be more sun tolerant (but we also carry sunpatiens).
- **Flower:** Treasured for their neon eye-popping colors! They are just a great way to add instant pizzaz to a shady area with a medley of available colors.
