Vigorous, upright plants with large flowers; great flowering color for shaded areas

Impatiens x hawkeri 'Harmony Series'

- **Use:** Extra-large flowers in vibrant colors on strong, full plants. Bright, season-long color for shade to dappled sun. Selected for superior landscape performance and great for hanging baskets or patio containers.
- **Exposure/Soil:** Plant in partial shade or shade. Water regularly, when top 3 in. of soil is dry, don't let them dry out. Use slow release fertilizer for best results. Brown leaf variety will tolerate more sun if the soil is not fantastic. Keep water off leaves and flowers.
- **Growth:** Moderate growing; reaches 10 to 18 in. tall and wide, maybe taller if deep shade or rich soil. Use in patio containers, hanging baskets and beds.
- **Hardiness:** Zone 9-11, Annual, houseplant
- **Foliage:** Green or red undersides of the leaf. We have found the red underside leaves to be more sun tolerant (but we also carry sunpatiens).
- **Flower:** Treasured for their neon eye-popping colors! They are just a great way to add instant pizzaz to a shady area with a medley of available colors.
