

# Opposites Attract Easy Wave Petunia Basket

They're perfect for solo and mixed planters and baskets, gardens and landscapes.

## *Petunia 'Opposites Attract Easy Wave'*

- **Use:** Fast-growing plants bloom freely all season in landscapes and containers without cutting back, and tolerate both heat and cooler conditions very well. Flower-filled plants grow a little more mounded than original Wave, with a more controlled spread. Loved by hummingbirds.
- **Exposure/Soil:** Plant in full sun to partial sun. Use slow release or water soluble fertilizer. Keep soil moist watering under leaves and flowers for best results.
- **Growth:** Densely-branched, it reaches about 6 inches tall and spreads 3 to 4 feet wide before you can turn around!
- **Hardiness:** Zone 8-11 Annual; Many people have success with them reseeding and coming back every year.
- **Foliage:** Deciduous. Pinch back tips occasionally for a super bushy plant.
- **Flower:** Its spreading habit is just stunning, covering ground at the rate of several inches every single day, and trailing lots of big, colorful blooms as it goes! Pink and purple are the brightest of all the Waves, with hot-pink & purple blooms that just glow in the sunny garden or hanging basket.
