

Red Velour Wave Petunia

Petunia 'Easy Wave Red Velour'

- **Use:** Your garden will always stand out with Easy Wave. Bring in a wide array of decorator colours. Put their huge versatility to work – they're perfect for solo and mixed planters and baskets, gardens and landscapes. Great for use in containers, flowerbeds, and large landscapes. Loved by hummingbirds.
- **Exposure/Soil:** Plant in full sun to partial sun. Use slow release or water soluble fertilizer. Keep soil moist watering under leaves and flowers for best results.
- **Growth:** Densely-branched, it reaches about 6 inches tall and spreads 3 to 4 feet wide before you can turn around! More mounded with more controlled spread than Wave® varieties. Its spreading habit is just stunning, covering ground at the rate of several inches every single day, and trailing lots of big, colorful blooms as it goes!
- **Hardiness:** Zone 8-11 Annual; Many people have success with them re-seeding and coming back every year.
- **Foliage:** Deciduous. Pinch back tips occasionally for a super bushy plant.
- **Flower:** Sets new blooms from the center as well as the ends of each stem, keeping the plant looking fresh and newly-opened month after month!
