WINNERS®

## *Petunia 'Supertunia Limoncello'*

- **Use:** I eat SUNLIGHT for breakfast. Supertunia petunias are vigorous with slightly mounded habits that function as both fillers and spillers in containers. They are also excellent landscape plants, best suited to be placed near the front of beds. They have medium to large sized flowers.
- **Exposure/Soil:** Plant in full sun to partial sun. Use slow release or water soluble fertilizer. Keep soil moist watering under leaves and flowers for best results.
- **Growth:** So in a garden bed, border, or landscape feature we grow 6-12" inches tall, and spread w-a-a-y out. As much as 2.5 feet. You want to fill an area with wall-to-wall flowers all season? I'm your plant. Hanging baskets, window boxes, patio containers, same story.
- **Hardiness:** Zone 10-11 Annual,
- **Foliage:** Deciduous. It's pointy leaves remain green in color throughout the season.
- **Flower:** Its blooms have a spectacular two-tone yellow color that highlights the flower's deep yellow center. Expect flowers to bloom all Spring, Summer, and Fall long.

You know what else is totally wicked? I'm disease resistant, self-cleaning, and have sturdy stems so I always look good.

**Did you know that we recycle empty pots and trays? Please bring them back! Save the Earth!**
