

Supertunia Royal Velvet Petunia

Petunia 'Supertunia Royal Velvet'

- **Use:** *FANCY, yet UNFUSSY.* Supertunia petunias are vigorous with slightly mounded habits that function as both fillers and spillers in containers. They are also excellent landscape plants, best suited to be placed near the front of beds. They have medium to large sized flowers.
- **Exposure/Soil:** Plant in full sun to partial sun. Use slow release or water soluble fertilizer. Keep soil moist watering under leaves and flowers for best results.
- **Growth:** So in a garden bed, border, or landscape feature we grow 6-12" inches tall, and spread w-a-a-y out. As much as 2.5 feet. You want to fill an area with wall-to-wall medium pink flowers all season? I'm your plant. Hanging baskets, window boxes, patio containers, same story.
- **Hardiness:** Zone 10-11 Annual,
- **Foliage:** Deciduous. It's pointy leaves remain green in color throughout the season. If your plant begins to look open or a bit tired, an all over trim can be beneficial. Use a sharp pair of scissors or pruning shears to trim back up to 1/3 of the volume of the plant.
- **Flower:** Gorgeous, deep purple petals give this petunia a bold, standout look. Its vigorous growth and profuse blooms ensure that this petunia will look great all spring, summer, and up until fall frosts.

You know what else is totally wicked? I'm disease resistant, self-cleaning, and have sturdy stems so I always look good.
