## *Petunia 'Supertunia Vista Fuschia'*

- **Use:** I do WONDERFUL things for a yard's SELF-ESTEEM. Supertunia Vista petunias are very vigorous, with mounding habits that can reach up to 2 feet in height in the landscape and will trail over the edges of baskets and containers up to 4 feet by the end of the season. They are fantastic landscape plants and are great in large containers, where they function as both fillers and spillers. In garden beds, they will work either in the front or middle of the bed. They have medium-sized flowers.
- **Exposure/Soil:** Plant in full sun to partial sun. Use slow release or water soluble fertilizer. Keep soil moist watering under leaves and flowers for best results.
- **Growth:** So in a garden bed, border, or landscape feature we grow 12 - 24 inches tall, and spread w-a-a-y out. As much as 2 feet. You want to fill an area with wall-to-wall medium pink flowers all season? I'm your plant. Hanging baskets, window boxes, patio containers, same story.
- **Hardiness:** Zone 10-11 Annual,
- **Foliage:** Deciduous. It's pointy leaves remain green in color throughout the season.
- **Flower:** All pink and pretty with its deep fuchsia color and multitudes of blooms all over the green foliage...but don't judge it by its seemingly dainty appearance. This girl is the rockstar of the garden landscape, vigorously spreading out farther and faster than any other Supertunia variety, filling in, massing out and beautifully cascading out of hanging baskets and containers. You gotta have this in your garden!

You know what else is totally wicked? I'm disease resistant, self-cleaning, and have sturdy stems so I always look good.
