

Surfinia Summer Double White Petunia

No matter how hot, humid, or rainy the weather gets, Surfinia® Summer Double can take it. Neat, free-flowering, and vigorous, it's the perfect container Petunia for nonstop double color all season long!

Petunia 'Surfinia Summer Double White'

- **Use:** The amazing trailing Petunia has gone designer! Surfinia® is now available in elegant double-flowered form, with the same terrific quick growth, great weather resistance, and nonstop blooms! It doesn't get any better than this for your hanging baskets, windowboxes, terraced gardens, and tall flowerpots!
- **Exposure/Soil:** Plant in full sun to partial sun. Use slow release or water soluble fertilizer. Keep soil moist watering under leaves and flowers for best results.
- **Growth:** Well-branched and very dense, these plants reach 12 to 16 inches high but spread up to 30 inches wide, filling even big containers. But you can also plant a single Surfinia®Double in a pot as small as 4 inches -- it adapts to the available space!
- **Hardiness:** Zone 8-11; Annual; Vigorously branching plants have an upright mounding habit, making it perfect for containers or the flowerbed.
- **Foliage:** Deciduous. Pinch back tips occasionally for a super bushy plant.
- **Flower:** Blooms earlier than any other double Petunia we have ever seen. These big clusters of pure white blooms appear all over neat, tightly mounded plants beginning in mid-spring and continuing nonstop through summer and, in most climates, right into fall! Talk about flower power!

Did you know that we recycle empty pots and trays? Please bring them back! Save the Earth!
