**5 months of
nonstop
blooms and
loves heat**

Scaveola 'Surdiva Series'

- **Use:** Surdiva® Scaevola is now one of the most heat tolerant plants around and offers continuous color even through summer and bad weather. Its blossoms are unique fan-shaped. They bloom well into the fall. Their habit is compact and semi-trailing. Easy to grow and maintain. They are self-cleaning. General usage is in baskets, combination plantings, window boxes, and landscaping.
- **Exposure/Soil:** Loves full sun or at least 4-5 hours of afternoon sun. They love the heat! Water 2-3 times a week. Try to keep water off of the leaves. Requires well-draining soil and appreciates slow release fertilizer. Water regularly under the leaves. If you are not good at watering get some **Soil Moist**.
- **Growth:** Moderate grower 6-8" high and 12-20" trailing.
- **Hardiness:** Annual, houseplant
- **Foliage:** Dainty, green leaves.
- **Flowers:** Delicate small fans are loved for their ability to attract butterflies!
