

# Red Ruffles Coleus

**We think they look fantastic with Wave Petunias and Dragon wing Begonias!**

**We recycle empty pots and trays!**

## ***Solenostemon scutellarioides 'Red Ruffles'***

- **Use:** These new, bigger, sun loving varieties have revolutionized container gardening. Also tolerates some shade. The brilliant colors explode in sunny locations. Coleus plants are durable and easy to grow. Grows quickly and puts on a massive display during the summer. has intense red leaves with black penciling. These new, bigger, sun loving varieties have revolutionized container gardening. The brilliant colors explode in sunny locations.
- **Exposure/Soil:** Sun – shade (less color on leaves in shade) Provide well-drained, moist soil, but not soggy. Use a slow release fertilizer. Superb in borders, beds, and open woodland gardens.
- **Growth:** Grows quickly 12-15” tall or more wide
- **Hardiness: Zone** 9-10, Annual; So colorful that many people keep them and use them as a house plant. These plants will do best in temperatures above 55 degrees.
- **Foliage:** Cutting grown. Dark burgundy leaves with red stripes.
- **Flower:** Not known for flowers, but they are small flowers on purple stalks in fall. Flower buds should be pinched off as soon as they develop.
