

Lemon Star Premium Amaryllis

**Comes
back
every
year
and
very
easy
to
grow!**

***Amaryllis hippeastrum* 'Lemon Star'**

- **Use:** This is truly a premium Amaryllis in an unusual lemon yellow shade. The Amaryllis you see offered at the chain stores bear absolutely no resemblance to the lusty giants we secure through special contracts with a Dutch grower. Our bulbs produce two flower stems, each with at least four blooms, and are easily grown on from year to year. Dutch Amaryllis will bloom about 8–10 weeks from arrival. Plant multiple bulbs in a big for a real show stopping arrangement.
- **Exposure/Soil:** Prefers full sun to part sun. Water regularly, when top 3 in. of soil is dry. Drought tolerant when established, prefers slightly moist soil, but must be well-drained.
- **Growth:** Grows 20-24" tall and 12" wide.
- **Hardiness:** 7-10 Perennial
- **Foliage:** Deciduous. Long, strap-like leaves.
- **Flower:** Soft yellow-green charmer with rounded flower petals perfectly overlapping to create huge saucer shaped blooms. Lemony Fresh! After flowers have faded keep watering bulb lightly until last spring frost indoors and then plant in your garden.

Visit the Fall Bulb Guide on our website for more planting information.
