

Double King Amaryllis

Comes back every year and very easy to grow! Sells for over \$20 in bulb catalogs! We pride ourselves in selling larger bulbs than the box stores that will produce more stems and flowers.

Hippeastrum 'Double King'

- **Use:** The shapely blooms and rich, iridescent colors of Amaryllis light up a cold day like nothing else we know. Double King is a bold fully double red featuring a few white markings radiating from center to edge.
- **Exposure/Soil:** Prefers full sun to part sun. Water regularly, when top 3 in. of soil is dry. Drought tolerant when established, but prefers moist soil, but must be well-drained.
- **Growth:** The strong stems spread out to 12-18" tall (taller if too much water or shade) and 6-8" wide.
- **Hardiness:** Zone 7-10 ; Perennial; Herbaceous. (it is claimed that they are cold hardy down to zone 6) In zones 7 and below, we recommend deep planting (up to 4 inches of soil above the bulb) and a thick winter mulch.
- **Foliage:** Deciduous. Long, strap-like leaves.
- **Flower:** The rich red blossoms of this remarkable double are 8" across, sometimes larger, and carry a hint of fragrance. All produce at least 2 blossoms per dark purple stem, and they appreciate staking to support the hefty blooms. Allow 8–10 weeks from bulb to bloom.
