

Ferrari Amaryllis

Comes back every year and very easy to grow! Sells for over \$20 in bulb catalogs! We pride ourselves in selling larger bulbs than

the box stores that will produce more stems and flowers. As cut flowers we find them swoon worthy too.

Hippeastrum 'Ferrari'

- **Use:** The shapely blooms and rich, iridescent colors of Amaryllis light up a cold day like nothing else we know. Brighten the short winter days with Amaryllis indoors for the holidays.
- **Exposure/Soil:** Prefers full sun to part sun. Water regularly, when top 3 in. of soil is dry. Drought tolerant when established, but prefers moist soil, but must be well-drained.
- **Growth:** The strong stems spread out to 12-18" tall and 6-8" wide. May grow taller if given too much water or not enough light.
- **Hardiness:** Zone 7-10 ; Perennial; Herbaceous. (it is claimed that they are cold hardy down to zone 6) In zones 7 and below, we recommend deep planting (up to 4 inches of soil above the bulb) and a thick winter mulch.
- **Foliage:** Deciduous. Long, strap-like leaves.
- **Flower:** This popular choice is shiny like a new Ferrari and equally attention-getting. Its flowers—strong, bold, and up to 4 per stem with 4 stems on this larger size —are a full 8" across. Allow 8–10 weeks from bulb to bloom.
