

Premier Amaryllis

Comes back
every year and
very easy to
grow!

Hippeastrum 'Premier'

- **Use:** This easy-to-grow bulb is a real gem! Our bulbs are larger than most other stores which means more flowers! Amaryllis are perennials here in Georgia and come back every year with more and larger flowers each summer! Our premium Dutch bulbs are selected for their size (32/+cm), beauty and reliability. Each bulb will produce at least 2 stems and a total of 8 flowers.
- **Exposure/Soil:** Prefers full sun to part sun. Water regularly, when top 3 in. of soil is dry. Drought tolerant when established, but prefers moist soil, but must be well-drained. Soggy soil will cause them to rot.
- **Growth:** Grows 12" tall. To keep short keep a little on the dry side and in full sun. After blooming is finished wait until after last frost in spring and then plant outdoors. They will then rebloom each year in summer in your garden.
- **Hardiness:** Zone 7/8-10 Perennial; Herbaceous.
- **Foliage:** Deciduous. Long, strap-like leaves.
- **Flower:** A new and improved amaryllis to brighten your winter days. Premiere's cranberry-red petals are broad and thick, with a velvety texture. You can look forward to multiple stems and up to a month of beautiful blooms.
