

# Miz America Mustard

**Thick leaf decreases the mud damage from inclement weather and makes for easy harvesting. It has a pleasant, mild taste compared to typical mustards - not bitter or spicy. It maintains its deep red color and mild peppery flavor from baby leaf to mature leaf.**

## ***Brassica juncea 'Miz America'***

- **Use:** Miz America is a strikingly beautiful red mizuna mustard hybrid with exceptionally uniform leaf color, shape and size. Miz America was bred to produce high-quality baby greens and still maintain its deep, dark red color on both sides of the leaf, even at a mature stage. Plant them behind your pansies for a striking backdrop that is edible too!
- **Exposure/Soil:** Plant in full sun. Prefers moist, rich soils with good drainage.
- **Growth:** Grows 4-10" tall and 4-8" wide.
- **Hardiness:** Zone 4-8; Annual; Lasts all winter and spring.
- **Foliage:** Evergreen in our mild winters. Adds a colorful pizzazz to salads and offers something new and different for the market. Vigorous and cold resistant.
- **Flower:** Tall stalks of sulfur yellow flowers in spring.
