

# Fast Vantage Cabbage

**Save money  
by growing  
your own veg-  
etables!  
The color of  
red cabbage  
makes it an at-  
tractive addi-  
tion to cooked  
foods, slaws  
and salads.**

## ***Brassica oleracea var. capitata f. rubra 'Fast Vantage'***

- **Use:** A great-tasting, early variety in the Headstart class with slightly earlier maturity and improved uniformity under cool conditions. Fast Vantage is an excellent choice for growers looking for high quality and uniform yields. Slow to bolt and heat tolerance.
- **Exposure/Soil:** Full to part sun. They must have well-drained soils, so if you have red clay you must amend it. Water regularly, when top 3 in. of soil is dry. pH of 6.5-7 preferred so amend soil with lime.
- **Growth:** Grows 12" tall and wide. Recommended spacing is 12 to 15 inches on rows at least three feet apart. You can also increase production in small garden by planting a double row on a bed.
- **Hardiness:** Vegetable; Annual Can be planted in spring or fall in our area.
- **Foliage:** Medium heads (2-3 lbs) with fresh green color and a sweet, mild flavor. It produces uniform, high-quality heads. Maturity: Very early, roughly 50–59 days after transplanting. *Repel flea beetles and root maggots on young seedlings by covering with floating row covers from day of planting. For cabbage worms and loopers, use *Bacillus thuringiensis* (Bt).*
- **Flower:** Not known for flowers.
