

Gypsy Pepper

You can grow them in a pot on your patio! This All-America Selections winner is a very prolific frying pepper that is also recommended fresh in salads.

Capsicum annuum 'Gypsy'

- **Use:** Gypsy peppers are small to medium in size, averaging ten centimeters in length and five centimeters in diameter, and have narrow shoulders with an elongated, tapered shape, similar in appearance to the shape of a jalapeno. Resistant to tobacco mosaic virus.
- **Exposure/Soil:** Full sun or at least 5-6 hours of afternoon sun. Water regularly, when top 3 in. of soil is dry. Use slow release fertilizer for best results. Keep water off leaves and flowers.
- **Growth:** Grows 1-2' tall and 1-1.5' wide.
- **Hardiness:** 9-11, annual, houseplant.
- **Foliage:** Small, lacy leaves.
- **Flower:** This elongated, 3-lobed beauty performs well in hot and cool regions. Great for frying or in salads. Ripens from light greenish yellow to orange to red. A sweet pepper similar to Romanian Sweet.
