

Sweet Rainbow Pepper

You can grow them in a pot on your patio!

Capsicum annum 'Sweet Rainbow' (65 to 70 days from sow)

- **Use:** Now you can enjoy sweet bell peppers in all the glorious colors and flavors available today -- without paying expensive supermarket prices for "gourmet" peppers. A mix of the finest variety of each color. Selected not only for appearance but uniform harvest time and superb disease resistance, so these varieties all mature within a week of one another and are vigorous garden performers.
- **Exposure/Soil:** Full sun or at least 5-6 hours of afternoon sun. Water regularly, when top 3 in. of soil is dry. Use slow release fertilizer for best results. Keep water off leaves and flowers.
- **Growth:** Plants are 24-36" tall and multibranching.
- **Hardiness:** Zone 9-11, Annual,
- **Foliage:** The short fuzzy leaves are unique and distinctive as well.
- **Flower:** Like a big box of crayons these multicolor peppers will inspire you to new heights of creativity. There's no end to the culinary masterpieces you can compose with big, bright glossy stuffing peppers in green, red, orange, yellow and purple. Thick-walled peppers can stand up to the creamiest, gooiest, sauciest fillings you can dream up. The sweet nutty flavors of the cooked peppers complement spicy fillings, and let subtle nuances come through.

Did you know that we recycle empty pots and trays? Please bring them back! Save the Earth!
