

Martini Cucumber

Cucumbers should be planted in a section of your garden that receives full sun and has evenly moist soil. If your garden space is limited, cucumbers will do just fine in full sun on a patio or deck in a 5 gallon or larger container.

Cucumis melo var 'Martini'

- **Use**: This outstanding blonde slicing cucumber is the toast of the town and makes a great all-around addition to any garden.
- **Exposure/Soil**: Full sun or at least 5-6 hours of afternoon sun. Water regularly, when top 3 in. of soil is dry.
- **Growth**: Grows 3-5' tall and 12" wide. Great on a large trellis.
- **Hardiness**: Zone 9-11, Annual,
- **Fruit/Flower**: Best when 5-6 inches long, Martini has a sweet, bright flavor from baby size up to 9 inches. Its flesh has a great juicy crunch with very few small seeds. Its smooth, white skin makes the fruit easy to spot at harvest and earns lots of compliments at the table. Plants are staggeringly prolific when picked regularly.
