

Alfresco Mixture SimplySalad® Lettuce

Lactuca sativa 'SimplySalad Alfresco Mixture'

- **Use:** This mix has a true Mediterranean flavor and feel to it. The mix includes lettuces, arugula, endive and radicchio. Visually a stunning mix.
- **Exposure/Soil:** Full to part sun and keep the soil evenly moist.
- **Growth:** Grows 6-12" tall and wide and larger.
- **Hardiness/Harvest Time:** Begin harvesting outer leaves as soon as they are large enough and continue until a central stalk begins to form, which signals the end of the harvest period. You can also harvest the entire plant when it's mature but still young and crisp.
- **Leaf:** Red and green leaf lettuces with arugula, endive and radicchio. Makes a delicious and nutritious salad. Easy on the palate. 14-21 days.

Vegetable gardens don't have to be boring. Plant violas and pansies in-between your vegetables!
