

# Celebrity Tomato

An AAS winner and long-time favorite of Park customers, Celebrity is a superior all-around tomato with such fantastic disease resistance you can put away the sprays and soaps for good! These determinate plants are exceptionally strong, bearing masses of smooth, round, bright red tomatoes. Weighing about 8 ounces, they're very uniform (no green shoulders here!) and resist cracking.

- ***Lycopersicum 'Celebrity'* Determinate type**
- **Use**: Vigorous, disease resistant, high yield and exceptionally flavorful fruit, make Celebrity tomato a winner for gardeners. This mid-early variety will produce under a broad range of conditions. Most genetic resistance of any All America Selection winning tomato. Resistant to Tobacco Mosaic Virus, Verticillium wilt, Fusarium wilt races 1 and 2 and root knot nematodes. Produces large flavorful fruit all season long. Extra fine for the home garden.
- **Exposure/Soil**: FULL SUN! Soak to depth of 6 to 10 inches when watering. They need at least 6 hours of direct sunlight a day. Tomatoes hate red clay so use a good soil such as our peat mix.
- **Growth**: This plant has a weeping habit, so it dangles about 2 feet over the sides of containers, for all the world as pretty as any spreading Petunia!
- **Hardiness**: 9-11, annual, houseplant.
- **Foliage**: Dark green quilted leaves.
- **Fruit**: Celebrity is a classic favorite for large, 8-oz. fruits that refuse to crack and keep coming over a long season!
