

# Heirloom Marriage Cherokee Carbon Tomato

## *Lycopersicum 'Heirloom Marriage Cherokee Carbon'*

**Robust purple beef-steak with rich flavour.  
A cross of Cherokee Purple and Carbon.  
Best in-ground.**

- **Use:** A cross of Cherokee Purple and Carbon. Heirloom Marriage Hybrid varieties are produced from modern day unions of heirloom parents, providing hybrid vigor while maintaining the virtue and integrity of their old-fashioned beginnings. They were bred for improved yield, earlier maturity, and fewer blemishes while maintaining old-time flavor. With much higher yields and earlier maturity than their parents, plus all of the great flavor and less fruit blemishes.
- **Exposure/Soil:** Full sun or at least 5-6 hours of afternoon sun. Water regularly, when top 3 in. of soil is dry. Use slow release fertilizer for best results. Keep water off leaves and flowers.
- **Growth:** Grows quickly 3' tall. Plant 3' apart in rows (4' wide). You'll definitely want to stake or cage these vigorous climbers to keep the fruit off the ground and avoid pests and diseases.
- **Hardiness:** Zone 9-11, Annual, Houseplant.
- **Foliage:** Small, lacy leaves.
- **Fruit:** Robust, purple, 10 to 12 ounce, beefsteak fruits are full of rich flavor.
