

Orange Zinger Tomato

Lycopersicon 'Orange Zinger' (Indeterminate growth)

- **Use:** Orange Zinger yields a large amount of crack-resistant, round cherry tomatoes in a beautiful dark orange color. Delivers big tomato flavor, too – a delightful balance of sweet and tangy with a “zing” of a finish. Plus, it offers excellent disease resistance! Best used in gardens. Stake/ trellis recommended for support.
- **Exposure/Soil:** Full sun or at least 5-6 hours of afternoon sun. Water regularly, when top 3 in. of soil is dry. Use slow release fertilizer for best results. Keep water off leaves and flowers.
- **Growth:** Grows quickly 3' tall. Plant 3' apart in rows(4' wide). You'll definitely want to stake or cage these vigorous climbers to keep the fruit off the ground and avoid pests and diseases.
- **Hardiness:** Zone 9-11, Annual, Houseplant.
- **Foliage:** Small, lacy leaves.
- **Fruit:** A perfect balance of sweet and tart, with added citrusy aromas, for delicious snacking and salads! Great-tasting, dark orange tomatoes are tasty in salads or eaten fresh by the handful! Produces lots of high-quality, crack-resistant tomatoes.
