

Patio Tomato

The perfect tomato to grow in a pot on your patio.

Lycopersicum 'Patio' Determinate

- **Use:** Plant produces large yields of 2" round red tomatoes. Excellent for small gardens or containers. Great for school projects. Kids love them. Disease Resistant: Very easy to grow and Tolerant to Fusarium Wilt. 70 days. Compact and upright, determinate plants require only 2" stakes and produce their fruits from the bottom of the plant.
- **Exposure/Soil:** Full sun or at least 5-6 hours of afternoon sun. Water regularly, when top 3 in. of soil is dry. Use slow release fertilizer for best results. If you have poor soil or red clay you may need to add a little lime to prevent blossom end rot.
- **Growth:** Bushy, 25" tall dwarf plants are compact and grow well in containers.
- **Hardiness:** 9-11, annual, houseplant.
- **Foliage:** Small, lacy leaves.
- **Flower:** Vigorous and productive with 4 oz. deep oblate, medium-sized fruit.
