

# Bushel and Berry® Baby Cakes® Blackberry

Thornless and easy to grow! Enjoy large, sweet berries from compact, upright plants.

## *Rubus 'APF-236T' PP 27032*

- **Use:** Baby Cakes® is a dwarf, thornless blackberry perfect for patio pots with its compact habit. In summer, large, classic and sweet tasting berries present on the plant in a fireworks-like spray of fruit. In most regions, this blackberry will produce twice in one season! Decorative and edible, this dwarf blackberry plant will even liven up your patio or entryway. Grows well in containers!
- **Exposure/Soil:** Full sun (with irrigation) -partial shade and a cool mulch may be beneficial. This cultivar prefers well-drained, moderately fertile soil.
- **Growth:** Grows 3-4' tall and wide. Canes are more erect than other thornless varieties and can be grown without a trellis when primo canes are tipped at 42" to control primo cane length and encourage lateral shoot growth.
- **Hardiness:** Zone 4-8; Perennial
- **Foliage:** Deciduous. In spring and summer, the leaves are shiny dark green above and gray-green below, turning to burgundy in fall and winter.
- **Flowers:** Fall-bearing (everbearing) primocane with a summer crop of firm and juicy berries. Floricane berries ripen in July. Primocane berries ripen in September through frost. Self-pollinating.
