

# Pink Lady Turtle Vine Basket

Plant this pink Wandering Jew in containers, patio pots, window boxes outdoors, where you can treat Pink Panther plants just as you would their

larger Purple Wandering Jew cousins - as an annual or bring it in once the weather turns chilly and use it as a brilliantly colored house plant!

This plant filters pollutants from the air while releasing oxygen. With this plant in your home, you breathe cleaner air.

## *Callisia repens* 'Pink Lady'

- **Use:** Overall, Pink Ladies are low-maintenance and fantastic ground dwellers. With that in mind, it's best to use them for tropical terrariums or displays that retain optimal levels of moisture. If you grow Pink Ladies, try to avoid prolonged periods of drought due to their higher risk of dehydration. Overall, Pink Ladies are low-maintenance and fantastic ground dwellers. With that in mind, it's best to use them for tropical terrariums or displays that retain optimal levels of moisture. If you grow Pink Ladies, try to avoid prolonged periods of drought due to their higher risk of dehydration.
- **Exposure/Soil:** Prefers to bask in at least six hours of bright, indirect light but it is not afraid to soak up some rays in sunny areas. The key is to keep it compact and maintain those gorgeous pink variegated leaves. This unique and very hardy plant can be grown at any light level, but shelter from hot afternoon sun. Requires moderate water.
- **Growth:** Grows rapidly to 4-6" tall and 4' wide over time if given enough water and fertilizer.
- **Hardiness:** Zones 10-11 Annual; Houseplant. Bring indoors below 50 degrees.
- **Foliage:** Characterized by stems filled with small, waxy round leaves, Pink Lady plants range from green striped colors to pigments of pink and cream and have a burgundy underside. Foliage is toxic so please do not ingest.
- **Flower:** Small 3 petaled white flowers in the summer, but not as showy as the leaves of this plant.
