

Skyscraper® Senecio

Provides excellent contrast in succulent arrangements.

Curio(Senecio) ficoides 'Mount Everest' PP22188

- **Use:** Like Blue Chalksticks, on steroids. Senecio Skyscraper is a strong, upright grower, reaching 2-3' in one growing season. No staking or support necessary. Fabulous new structural component for succulent gardens in summer. Can be used as a house plant.
- **Exposure/Soil:** To prevent rot, use well-draining pots and soil(like a catus mix) and only water when the soil is dry. Keep the soil even drier during winter dormancy. If possible, move the plant outdoors in summer(slowly introduce to full sun to prevent sunburn shock).
- **Growth:** Grows 3-4'(possibly 5' in many years) high x 1.5' wide.
- **Hardiness:** Zone 10a-11b; Houseplant/ Annual
- **Foliage:** Robust, blue-green succulent leaves.
- **Flower:** Not known for flowers.
