

Cyclamen

When you need a quick addition of colorful flowers to brighten up your home during the winter, grab a few indoor cyclamen to bring a smile indoors.

Cyclamen sp.

- **Use**: The right cyclamen care will reward you with some of winter's most charming and vibrant bloomers. Cyclamens are known for their petite stature and quaint blooms.
- **Exposure/Soil**: Provide bright, indirect light indoors. Keep soil consistently moist but not waterlogged. Maintain a cool environment, around 50-60°F (10-15°C). Cyclamens prefer higher humidity levels. Use a well-draining potting mix.
- **Growth**: Grows 6-9" tall and wide.
- **Hardiness**: Zone 9a-11b Houseplant/ Annual
- **Foliage**: Deciduous. Pretty green, heart-shaped leaves that often have silver patterns.
- **Flower**: The nodding, characteristically shaped flowers have 5 reflexed and twisted petals, often with dark markings at the base.
