

Parvati Mother Fern

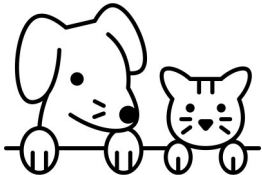

Asplenium 'Parvati'

- **Use:** With thick, shiny, evergreen fronds and a waxy coating, it thrives in low humidity. Its compact size is perfect for any room. Plus, it's a literal mother, producing adorable plant babies on its leaves. Get ready to be the coolest plant parent ever!
- **Exposure/Soil:** Bright filtered light is best. Directly in front of windows with no direct sun will work, as well as near eastern or western facing windows, but avoid mid-day sun which can be too strong. Prefers high humidity with temperatures between 60-85 F to keep edges from browning.
- **Growth:** Slow growing. 12-18" tall and wide.
- **Hardiness:** Zone 9-11, Annual, Houseplant;
- **Foliage:** Robust and distinctive dark green fronds
- **Flower:** No flowers, but spores.

This plant filters pollutants from the air while releasing oxygen. With this plant in your home, you breathe cleaner air.

This plant is considered non-toxic, therefore safe around children and pets.
