

Vein Plant

This unusual houseplant is a real conversation piece or annual to put in your shade planters.

Fittonia sp.

- **Use:** This easy grower adds a brilliant red or silvery color to a windowsill garden or terrarium. Especially grown for its foliage in low light areas, the low, mounding growth habit makes it highly desirable for limited spaces.
- **Exposure/Soil:** Keep compost moist at all times but never waterlogged. Reduce watering in winter. Use soft, tepid water. Misting is necessary.
- **Growth:** Can grow 1-2' tall.
- **Hardiness:** Zone 10 Houseplant, Annual
- **Foliage:** An attractive foliage plant with leaves which bear a network of white, red or pink veins.
- **Flower:** Not known for flowers.
