

Vein Plant

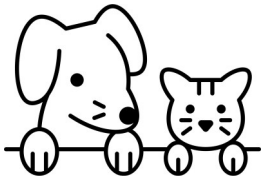

Fittonia sp.

- **Use:** This easy grower adds a brilliant red or silvery color to a windowsill garden or terrarium. Especially grown for its foliage in low light areas, the low, mounding growth habit makes it highly desirable for limited spaces. This unusual houseplant is a real conversation piece or annual to put in your shade planters.
- **Exposure/Soil:** Bright indirect light best for colorful leaves, but will tolerate lower light. Keep soil moist at all times but never waterlogged. Reduce watering in winter. Use soft, tepid water. Misting is necessary if house is dry in winter.
- **Growth:** Can grow 1-2' tall.
- **Hardiness:** Zone 10 Houseplant, Annual
- **Foliage:** An attractive foliage plant with leaves which bear a network of white, red or pink veins.
- **Flower:** Not known for flowers.

This plant filters pollutants from the air while releasing oxygen. With this plant in your home, you breathe cleaner air.

This plant is considered non-toxic, therefore safe around children and pets.
